How to Use Webmail ?

How to use Webmail?

1. Run IE
2. Enter the following URL address
   www.silicon.sg/webmail
3. Enter your email address and password
   Note. Full email address is needed
4. Click Login

View of your folders on the left.

Control buttons at the top and bottom – you can compose new mail (2) or

select the mail (3) to forward, delete.

To read the mail, simply click it.

Your folder settings have been configured based on the **Best Practices** we have.

When finished, click Sign-out (located at the top right hand corner).

All Emails are anti-virus filtered. However, if you suspect that an attachment may have been infected with a virus, simply forward the whole email (with attachment(s)) to us at support@emmanuel.com.sg without opening it.

We recommend that you download your emails regularly to your own computers to free-up the Server space.
